

Sinclair Broadcast Group of Maryland, owner of the largest chain of television stations in the nation, plans to preempt regular programming two weeks before the Nov. 2 election to smear Kerry with a documentary accusing Sen. John F. Kerry of betraying American prisoners during the Vietnam War. This unprecedented move would be direct electioneering by a corporate media giant -- and against federal election law. They are not fulfilling a broadcaster's duty to the public or even their own business interests, but rather pandering to partisanship. Please maintain fair and balanced reporting. Thank you
